

Summary of Recreational Groundfish Regulations for 2008

Cowcod Conservation Areas

Area 1 is located south of Pt. Conception. Area 2 is located west of San Diego. See Section 27.50 for exact location coordinates
In these areas, only the groundfish listed within this table may be caught or possessed (see Exception at end of table).

Note: Regulations in this table may change during the year. Before engaging in ocean sportfishing for groundfish and associated species, please review one of the sources listed in Footnote 3 to receive the most up-to-date regulations.

1. "Nearshore rockfish" as described in Section 1.91(a)(1) means black rockfish, black-and-yellow rockfish, blue rockfish, brown rockfish, calico rockfish, China rockfish, copper rockfish, gopher rockfish, grass rockfish, kelp rockfish, olive rockfish, quillback rockfish, and treefish.

2. See regulations for information on gear restrictions and fillet lengths.

3. Subject to in-season change. Call the Recreational Groundfish Fishing Regulations Hotline at **(831) 649-2801**, visit the Marine Region Web site at **www.dfg.ca.gov/marine**, send an e-mail to **AskMarine@dfg.ca.gov**, or call your nearest DFG office for the latest information. Anglers may also sign up for e-mail notification of regulation changes at **www.dfg.ca.gov/marine/subscribe.asp**.

4. Divers and shore-based anglers are exempt from season and depth restrictions affecting nearshore rockfish, cabezon, greenlings, California scorpionfish, ocean whitefish, sanddabs and "other flatfish". However, when spear fishing during a boat-based closure, only spear fishing gear is allowed aboard any vessel or watercraft. Also, when angling from shore during a boat-based closure, no vessel or watercraft may be used to assist in taking or possessing species included in this table. The following definitions describe boat-based and shore-based anglers, and divers:

- Boat-based anglers are fishermen that fish from boats or vessels of any size or any other type of floating object, including kayaks and float tubes.
- Shore-based anglers are fishermen that fish from beaches, banks, piers, jetties, breakwaters, docks and other manmade structures connected to the shore.
- Divers are spear fishermen entering the water either from the shore or from a boat or other floating object.

5. Total length is the longest straight-line measurement from the tip of the head with the mouth closed to the end of the longest lobe of the tail. A measurement illustration is available on pg. 80 of the 2008 Ocean Sport Fishing regulations booklet.

6. In closed areas or during closed periods, Pacific sanddab, butter sole, curlfin sole, flathead sole, rex sole, rock sole, and sand sole (defined as "Other Flatfish" in Section 1.91(a)(10)) may ONLY be taken using the following gear: up to 12 No. 2 (or smaller) hooks and up to 2 lb. of weight.

EXCEPTION: During the open season, groundfish may be possessed in closed areas and in water depths closed to fishing only aboard vessels in transit with no fishing gear in the water. See sub-section 27.20(b).
